d. The Government will consider all quotes that are timely received and may consider late quotes in accordance with 52.212-1. Failure of a quote to address any items listed in the attached submission package may make a quote unacceptable.

9. Provision 52.212-2 Evaluation—Commercial Items applies to this acquisition.

(a) The Government may issue a purchase order resulting from this solicitation to the responsible quoter whose quote conforming to the solicitation will be most advantageous to the Government, price and other factors considered. The following factors shall be used to evaluate quote:

- (i) technical capability of the item quoted to meet the Government requirement;
- (ii) price;

(iii) past performance, if applicable (see FAR 15.304); justification is required if this is not assessed when the value of the procurement is over the limits set in FAR 15.304(c)(3)(i) and any applicable deviations.

Award shall be made to Eaton Corporation as the sole source vendor by providing a technically acceptable quote at a fair and reasonable price.

To be considered a technically acceptable solution for a parts procurement, the quoted parts shall meet the solicitation requirements including required parts, delivery dates, and terms and conditions stated in the solicitation. To be considered a technically acceptable solution for a service, the quoted service shall meet the solicitation requirements including terms and conditions stated in the solicitation. The quote shall state that all aspects of the technical requirement, including required delivery date and part numbers, can be met.

If utilized, a past performance evaluation will be conducted in accordance with FAR 13.106-2(b)(3)(ii)(C). The Government intends to utilize the Contract Performance Assessment Reporting System (CPARS) for past performance evaluations as a basis for anticipating successful/unsuccessful performance on this required effort. To be considered acceptable for past performance, a search of the CPARS must reveal no negative past performance information for the recent and relevant records. In the event there are no recent and/or relevant CPARS records, the quoter may submit information on recent and relevant subcontracts and/or commercial contracts. If no recent and relevant contracts are available in CPARS or submitted by the quoter, the quoter's past performance record shall be considered "unknown." In the context of acceptable or unacceptable, "unknown" past performance shall be considered "acceptable." To be considered recent, the effort must either still be in progress or have been completed within the previous three (3) years from date of this draft award notice. To be considered relevant the record should be similar in terms of complexity, scope, and magnitude. "Scope" is defined as experience in areas defined in the SOW. "Magnitude" is defined as the measure of similarity of the volume, dollar value, and/or duration of work actually performed under the quoter's submitted contracts to the SOW. At the quoter's discretion, additional past performance information may be submitted with the quote as a supplement to CPARS. If furnished, this submission will be evaluated in accordance with the procedures described above.

The Government will evaluate quoted pricing for reasonableness utilizing techniques described in FAR 13.106-3.

(b) *Options*. The Government will evaluate quotes for award purposes by adding the total price for all options to the total price for the basic requirement. The Government may determine that a quote is unacceptable if the option prices are significantly unbalanced. Evaluation of options shall not obligate the Government to exercise the option(s).

(c) To consummate a binding contract between the parties, the successful quoter shall accept the purchase order in writing (see FAR 2.101).
